

## Product Change Notification

**Change Notification #:** 0000016743-00  
**Change Title:** Solidigm™ D7-P5520 & D7-P5620 (formerly Intel® SSD D7-P5520 & D7-P5620) Series SKUs, Firmware Update  
**Customer:** Generic  
**Date of Publication:** November 30, 2023

### Key Characteristics of the Change:

Product Design

### Forecasted Key Milestones:

<b>PCN Notification Days</b>	90 days
<b>Date Customer Must be Ready to Receive Post-Conversion Material</b>	February 28, 2024

### Description of Change to the Customer:

The Solidigm SKUs listed in the products affected table will have the following changes.

The firmware version is being updated from 9CV10200/9CV10310 to 9CV10450. The changes in the new firmware version are incremental improvements from previous version. Inventory will transition in the Solidigm factory on or beyond the above date to replace older firmware version with the latest version.

### Customer Impact of Change and Recommended Action:

Since the firmware update has incremental improvement over the previous version, Solidigm anticipates no product impact with this firmware, and re-qualification is not recommended.

Milestone dates are estimates and subject to change based on business and operational conditions.

Solidigm will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Solidigm shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Please contact your local Solidigm Field Sales representative if you have any further questions about this product change notice.
