Product Change Notification

Change Notification #:   0000027402-00
Change Title: Solidigm™ D5-P5336 Maintenance FW Update
Customer: Generic
Date of Publication: September 29, 2025

Key Characteristics of the Change:

General FW changes

Forecasted Key Milestones:

PCN Notification Days	90 day
Date Customer Must be Ready to Receive Post-Conversion Material	December 29, 2025

Description of Change to the Customer:

The Solidigm SKUs listed in the Product Affected table will have a firmware update from 5CV10102 (for 15.36TB and 30.72TB E1.L), 5CV10202 (for all U.2, and E1.L 61.44TB), and 5CV10302 (for all E3.S) to a single FW, 5CV10326. The new firmware version includes improvements over the previous firmware(s) and addresses issues identified in the sighting report.

Factory inventory will transition on or beyond the above date to supplant older firmware version with the latest version.

Customer Impact of Change and Recommended Action:

Solidigm anticipates no product impact with this firmware. Solidigm will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Solidigm shipping mixed inventory. Therefore, customers will need to manage and migrate to the post conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions. Please contact your local Solidigm Field Sales Representative if you have any further questions about these changes.
