Change Notification #: 115874 - 00
Change Title: Select Intel® SSD DC P4510 Series Products,
PCN 115874-00, Product Design,
Firmware Update
Date of Publication: October 30, 2017

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Jan 29, 2018
---	--------------

Description of Change to the Customer:

The Intel® SSD DC P4510 Series firmware version is being updated from VDV10110 to VDV10120 for the listed products affected table below

Customer Impact of Change and Recommended Action:

Since the firmware update has incremental improvement over the previous version, Intel anticipates no product impact with this firmware, and re-qualification is not recommended.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.

Please contact your local Intel Field Sales Representative if you have any further questions about these changes.
